

README

The documents and data included in this package are the monthly snapshots of CCR/SAM data from October of each year from 2012 through 2017. From 2012 through 2014, the public (or FOIA) file was in the legacy CCR format. This format differs significantly from the existing SAM format. The biggest difference is that the DUNS number was not part of the FOIA CCR extracts, so the 2012 through 2014 files do not have DUNS number. All files are provided in their original state and have not been altered since publication.

Mapping and Guidance documents

- **2010-04-26 CCR Data Dictionary.pdf** – Data Dictionary for Legacy CCR (2012, 2013, 2014) extracts
- **BPNSE_1050_Extract Layout Level 0 FOIA.doc** – File layout mapping for Legacy CCR (2012, 2013, 2014) extracts
